

OUR

MISSION

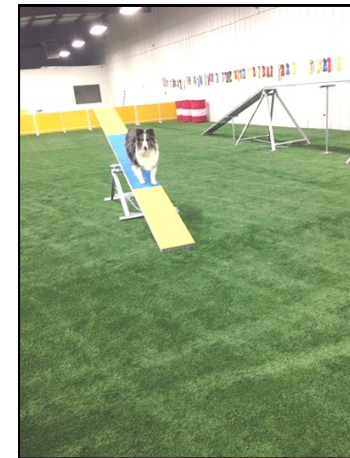

To become Louisville's premier dog training center producing competitive champions in agility and other dog sports. To increase the numbers of handlers involved in the sport and bonded with their dog, while decreasing the number of canines euthanized yearly in Louisville, Kentucky. We firmly believe that when the human/nonhuman animal bond is strengthened, both participants receive benefits. We hope to contribute to an overall decrease in the number of animals euthanized in Jefferson County by securing bonds between new dog owners and their adopted dog.
